Dear Mr. Baranek,

MATLOCK BATH – PLANNING THE FUTURE

I refer to our recent meeting held on Wednesday 9th December 2015 where you formally announced your proposals to work with the University of Derby on a project to investigate the future of Matlock Bath.

It is commendable that the Parish Council is showing such enthusiasm and commitment to work collaboratively across both the private and public sector in order to obtain a clear understanding of the challenges and opportunities for Matlock Bath in the future. Matlock Bath is without doubt, one of the most attractive, inland tourism destinations in the country. However, it is clear that in order to meet the future needs of residents, visitors and people who work within the village, it needs to adapt to changing circumstances.

The work that you propose to undertake will be essential to understanding the challenges and opportunities that need to be addressed and in this regard, the District Council is fully supportive of your project and we will provide whatever assistance we can to you.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Paul Wilson', with a small flourish at the end.

Paul Wilson
