RESIDENTS' FOCUS GROUPS

The Temple, Matlock Bath

The students of the University of Derby cordially invite all residents of Matlock Bath to attend this focus group. The purpose of the focus group is to get a better understanding of the needs of the residents in a small village which attracts many visitors. With one collective voice, the community of Matlock Bath can come together improve and enhance the visitor experience yet manage the needs of those who live here. We aim to provide solutions that will help the development of Matlock Bath as a tourism destination.
